EDUCATION

2021-2024	Computer Engineering Cycle - National School Of Computer Science (ENSI)
2019-2021	Math-Physics Preparatory Program - Preparatory Institute for Engineering Studies of Monastir (IPEIM)
2019	Mathematics Baccalaureate - Pionnier School of Kairouan(LPK)

EXPERIENCE

12-02-2024	Software Engineer Intern, SIEMENS, 6 months
12-08-2024	Tunis, Tunisia Worked on improving Siemens' FPGA prototyping software by adding a tool to detect and resolve timing violations
03-07-2023	Software Engineer Intern, AT MONETICS SERVICE SOLUTIONS, 2 months
18-08-2023	Tunis, Tunisia Worked on developing an application to facilitate communication between banks and customers

PROJETS

SIEMENS INTERNSHIP PROJECT	AUG 2024
Improved Siemens' FPGA prototyping software by implementing a tool that addresses timing violations through dynamic constraint optimization, manages clock frequency and reconfigures the prototyping design C++ Verilog Perforce FPGA	
MSS INTERNSHIP PROJECT	AUG 2023
Developed and designed a web application for managing and facilitating mobile payment operations within a banking institution Angular .NET MySQL GitL	
SMART SCHOOL ASSISTANT	MAY 2023
A web app that uses a voice chatbot to assist students in learning more about their university. Flask OpenCV Reactjs Raspberry Pi MYSQL Git	
SAVE YOUR PROGRESS	APR 2022
Save your progress is an educational game which aims to raise awareness about the importance of vaccination and sanitary protocol Dart Flutter Git	

ACTIVITIES & ACHIEVEMENTS

Competitive Programming Mentor	Sep 2022 - Ongoing
Former Training Manager at ENSI Competitive Programming Club (Sep 2022 - Aug 2023)	
Coached over 60 students in various algorithms and data structures	
Contributed as a Judge to the success of the Code and Conquer (C&C) event, the first national competitive programming competition at ENSI	
Organized the ENSI Programming Challenge 2.0 (EPC 2.0), an ICPC-compliant, four-hour programming competition with 30 teams of three participants and 15 solo competitors	
Hosted training sessions in competitive programming at IEEE ENSI and IEEE ENIT	
Competitive Programming Contestant	Sep 2021 - Ongoing
+1500 problems solved on Codeforces in C++	
Expert level : Ranked in the top 8% among Tunisian contestants	
Qualified for Meta HackerCup 2023 Round 2, ranking 2566 out of 20324 in Round 1	
Ranked 11/80 in TCPC 2023	
Ranked 9/50 in TCPC 2022	
Codeforces Account : L_7	
AtCoder Account : SSGSSE	

SKILLS

Programming Languages :

C/C++ Python C# Dart

DBMS :

MYSQL ORACLE

Framework :

.NET Flutter Flask Angular

Version Control :

Git Perforce

LINGUISTICS

- Arabic : Fluent
- English : Good
- French : Good
- German : Beginner
- Spanish : Beginner

ENTERTAINMENT

- Problem Solving
- Chess
- Taekwondo
