About Me

I am a computer engineering student at ESPIRIT, passionate about learning and innovation. I enjoy exploring new technologies, developing my programming skills, and working on creative projects.

Education

2024 – 2025	Computer Engineering Cycle-Private Higher School of Engineering and Technology (Esprit)
2022 – 2024	Math-Physics Preparatory Program-Preparatory Institute for Engineering Studies of Gafsa(IPEIG)
2022	Mathematics Baccalaureate-Okba Ibn Nafaa Institue In Kairouan

Technical Skills

Programming Languages

C, Java, Python,php

Frameworks:

Symfony, Spring Boot, Angular

Databases

MySQL, Oracle

Machine Learning

Basic knowledge

Web Development

HTML, CSS, JavaScript

Networking

TCP/IP protocols

Operating Systems

Unix/Ubuntu experience

Language:

Arabic

Fluent

English

Intermediate

French

Intermediate

Projects

Parking Management System

Developed a parking management application using C on Ubuntu.

Technologies: C, Ubuntu

Results: Management of parking slots, fee calculation, reservations, agent management, customer service, billing, and handling of feedback and complaints.

Event Planning Application

Developed a desktop application for event planning using Java and JavaFX.

Technologies: Java, JavaFX

Results: User-friendly interface for event management, participant tracking, and report generation.

Water Level Monitoring System

Created a water level monitoring system with microcontrollers.

Technologies: Microcontroller, Embedded Programming

Results: Design schema and code for real-time monitoring and control

EcoMarket Web Application (Symfony)

Developed a web application using the Symfony framework to manage products, categories, users, and orders.

Technologies: Symfony, PHP, Twig, MySQL, MVC Architecture .

Results: Implemented CRUD operations, authentication system, responsive interface, and database integration.

Professional Experience

07/2025 – 08/2025

Remote

Designet Web Agency, Full Stack Developer Intern

- Developed a web application for selling food products using Spring Boot and Angular
- Designed and implemented RESTful APIs for product and order management
- Integrated MySQL database for data storage and management
- Implemented authentication and user role management.
